

The Promise Of Purity

GLOBAL AGRO
CORPORATION PVT. LTD.TM

About us

Global Agro Corporation Pvt. Ltd. (GACPL), established in 2005, is headquartered in New Delhi, India, the capital of the nation. The company is a leading exporter of premium-quality agro products, catering to diverse international markets across the globe.

Over the years, GACPL has earned a distinguished position in the agro industry by embracing best practices, innovation, and sustained investments in technology, resources, and logistics. Through our commitment to excellence, we have achieved an export volume exceeding 250,000 metric tons per annum, particularly in the segment of Indian rice exports.

Our robust business model and customer-centric approach have enabled us to expand our global footprint and establish long-term relationships with clients worldwide. By continuously enhancing our quality standards and developing new product lines, GACPL has made a significant contribution to India's agro economy.

Our production facilities operate in full compliance with European Food Safety and Quality Standards as well as U.S. FDA regulations, supported by state-of-the-art technology and modern machinery to ensure consistent quality, safety, and reliability in every shipment.

Vision

“To be a global leader in rice quality and sustainability, delivering trusted and superior grains to nourish communities worldwide, while ensuring prosperity for every farmer and partner in our value chain.”

Mission

“Our mission is to source the best paddy and use advanced milling technology to deliver premium-quality rice.

We strive for excellence through strict quality control, efficient operations, and strong, long-term partnerships with farmers, distributors, and customers worldwide.”

Manish Goel

Chairman and Managing Director

Manufacturing Excellence

Our world-class milling plant is strategically located near Mundra Port, Gujarat, offering a strong logistical advantage for global exports. We source premium Basmati paddy from the fertile regions of Punjab and Haryana, renowned for producing the finest aromatic grains, and procure select Non-Basmati varieties from across India. The facility has been established by Buhler Japan, a world-class leader in grain processing systems, and is equipped with ultra-modern machinery such as pre-cleaners, de-stoners, precision sizers, paddy separators, de-huskers, polishers, graders, and color sortex units.

Our rice grading system is supported by advanced Cater-Day Technology (USA), while pre-cleaners and magnetic separators from Smith-Seeger (Germany) are utilized to eliminate any foreign materials—ensuring that the rice remains pure and protected throughout its journey from field to plate.

At Global Agro Corporation, we take pride in processing rice from paddy to the final premium product under one roof. Using advanced technology and strict quality control at every stage — from cleaning, de-husking, polishing, grading, and color sorting to hygienic packing — we ensure that every grain meets international standards of purity, taste, and appearance.

Our commitment to excellence and consistency has made our rice a trusted choice in global markets, delivering quality that truly speaks for itself.
